DX-PEDITION TO ANGUILLA B.W.I.

## VP2EN

CQ ZONE: 8

ITU ZONE: 11

IOTA: NA22

Operating from The Lloyd Hotel, Anguilla — many thanks to Mr & Mrs Lloyd for all their help with supplying electricity and allowing strange looking antennae to be put on their roof!

Anguilla is a small island in the Caribbean which is very flat, the highest point being only 250 ft. a.s.l. The only permanent amateur Radio Station there is that of the Boy Scouts, which is mostly operated by Quincy VP2EQ.

This QSL confirms our brief communication as indicated and I look forward to contacting you again — probably in a Contest!
